

NHSA Women's Health Series: October 2022

Featuring ROSE and ROBE

**Thursday, October 6th
12:00 - 1:00 PM ET**

Join the National Healthy Start Association for our Women's Health series. Each month we will focus on a different topic regarding women's and reproductive health.

"Reaching Our Sisters Everywhere (ROSE), Inc. seeks to enhance, encourage, support, promote, and protect breastfeeding throughout the USA, by working to reduce the breastfeeding disparities among African American women, and to strengthen the health of their babies and families through, mentoring, training, breastfeeding support groups, social support, outreach, education, legislation, health policies, and social marketing."

In addition to discussing the benefits and ways to support breastfeeding, this webinar will discuss the important role that fathers play to improve maternal and child health outcomes through their ROBE program.

This presentation will be lead by Dr. Bugg, Andrea Serano, Wesley Bugg
